DESCRIPTION

The MG IM5 Standard Range is a stylish, confidence-inspiring choice for anyone looking for an efficient electric ride with everyday practicality. With just 8,000 miles on the clock and zero previous owners, this example feels genuinely well kept, offering the kind of low-mileage ownership experience that’s hard to find. It’s a modern MG with a clean, simple appeal that suits both daily commutes and weekend driving.

Designed for real-life use, the Standard Range specification strikes a sensible balance between cost-effective driving and flexible day-to-day range. Expect comfortable seating, a well-thought-out cabin layout, and easy-to-live-with proportions that make town driving and longer journeys equally manageable. It’s the sort of car you can get straight into and enjoy without the usual compromises.

Condition is excellent throughout, supported by its very low mileage and full ownership history clarity. If you’d like to see it in person, we’d be happy to arrange a viewing—enquire today to check availability and take the next step towards your next MG.
